Backup Audit Review

system backup

What it does

- The Backup Audit Service Package provides a full backup review for Company networks. Each valuable area of a system is carefully monitored and configured so that it is backed up regularly to ensure safety and protection from loss or corruption. Backup procedures are fully documented for future reference.

Key Services Included

- Network/System backup review
- Application configuration backup review
- Firewall and communications configuration backup
- Email storage and backup review
- Business continuity and disaster recovery planning

How and when does it happen

- All key services are completed in accordance with approved test script procedures and check lists. Comprehensive reports and recommendations are produced on completion.

- This service package can be purchased as a one off fixed cost. The service will be undertaken only once a year. Under this offering.

- The subscription option provides saving benefits and the service takes place twice a year on scheduled dates
