Security Audit – Standard Service Package

network tuning

What it does

- The Security Audit Professional Service Package achieves a higher level of effective security for companies. Protecting against any security threat, a comprehensive evaluation and risk analysis is undertaken on a network. A security policy and procedure review will also be completed to comply with international auditing and security standards.

Key Services Included

- Security policy review
- Evaluation of existing external/internal security
- Network and security discovery
- Network security audit
- Authentication testing
- Security log audit
- Security policy document review

How and when does it happen

- All key services are completed in accordance with approved test script procedures and check lists. Comprehensive reports and recommendations are produced on completion.
- This service package can be purchased as a one off fixed cost. The service will be undertaken only once a year. Under this offering.
- The subscription option provides saving benefits and the service takes place twice a year on scheduled dates
